

**HEALTHTRANS™**

A healthier approach to pharmacy benefits

## HealthTrans Specialty Drug List July 2008

### SPECIALTY DRUG LIST

Specialty medications are generally utilized for treating unique disease conditions and are typically injectible or that otherwise require special handling considerations.

Members that require these specialty medications usually receive express delivery directly to their home or office and also receive clinical support by pharmacists or other educational material to help maximize treatment success.

**Examples of specialty medications are listed below, but are not all-inclusive.**

### NOTE

To obtain prior authorization for Specialty medications, your physician must contact HealthTrans:
